CYSEC NG OVERVIEW

Cyber Security Challenge Nigeria Initiative (CYSEC NG) is the first and largest offensive premier Cyber Conference and Hacking event in Africa. CYSEC NG is an NGO registered with CAC committed to identifying Nigeria's next generation of cyber security professionals, connecting Nigeria's best and brightest to the cyber security industry, creating an enabling platform for skill acquisition, youth empowerment and local content development in information and cybersecurity towards national and economic development of Nigeria.

Our organisation is hosting an event, CYSEC NG NATIONAL HACKATHON AND CYBERSECURITY CONFERENCE 2022, which is directed towards the educational convergence of students, information security professionals, financial organizations and government agencies to providing solutions to emerging technology challenges through interactive discussions, exhibitions, ethical hacking demonstrations, Capture-The-Flag competitions, seminars and award recognitions for notable contributions to the Cybersecurity Community in Nigeria.

We are delighted to invite your organization to sponsor this year's event to make a difference.

Since 2016, we have been hosting cybersecurity trainings, events, webinars and hackathons to encourage and impact professional infosec community. Through these, we have imparted over 25,000 students, youths, professionals from private companies and Government agencies, bringing speakers and executives from public and private sectors.

ORGANIZATION SIZE

ABOUT

For over 6 years, CYSEC NG has grown to become one of Africa's leading Cybersecurity Community. Today, we had the honor of training over 45,000 persons cutting across beginner to advanced professionals. The purpose of CYSEC NG is not only identifying Nigeria's next generation of cyber security professionals, but also to providing, connecting and creating an enabling platform for skill acquisition, youth empowerment and local content development.

In the past, we have held 15 webinars, 47 youth corp members seminars, over 1000+ trainings and certifications for individuals, professional community, public and private companies, and CYSEC NG National Hackathon and Cybersecurity Conference in 2017, 2018 and 2019 consecutively.

EVENT

The annual CYSEC NG National Hackathon and Cybersecurity Conference 2022, is a popular event among the InfoSec and Cybersecurity space in Nigeria and is in its 2022 edition. This year, the event is planned to attract over 700 cybersecurity professionals from various industries including Telecommunications, Financial Services, Insurance firms, Oil and Gas, Conglomerates, Tech Startups, Financial Technology (FinTech) companies, AgriTech, other privately-held organizations and also government Ministries, Department and Agencies (MDAs) physically present and 3,000+ virtual participants.

We have come a long way, but we still need your support. Your contribution is needed to help make this event more successful. We cordially extend our proposal to your **organization or company** to please sponsor and support **CYSEC NG 2022 National Cybersecurity Conference**.
